Attention: Reviewability Determination Request  
100 North Union Street, Suite 870  
Montgomery, Alabama 36104

VIA EMAIL TO: [shpda.online@shpda.alabama.gov](mailto:shpda.online@shpda.alabama.gov) (Original will not follow unless requested)

Dear Sir/Madam,

Please consider this letter and supporting documentation as a request for initial reviewability determination pursuant to SHPDA Rule 410-1-1.02. All Talk, LLC was under the belief (and still maintains) that this was not a requirement for pediatric habilitation clinics. However, in an attempt to address this, we are filing this initial letter based on the recommendation of Kristin Norman from the State Health Planning and Development Agency.

We have reviewed other clinics in Alabama who provide the services we provide and have found close to 100 others that are not in compliance with a CON or ADPH licensure if this is in fact required for clinics such as ours. Regardless, I apologize for the delay in filing this and want to do anything to expedite the process so as to ensure that the children we serve are not deprived of services which could ultimately cause reduced progress and difficulty adjusting to a new facility. I appreciate your understanding and assistance in this matter.

I am including the information listed on the "Factual Information Required for Reviewability Determination Requests (SHPDA Rule 410-1-1-.02).

1. Name of company seeking the reviewability determination: All Talk, LLC dba The SpOT Clinic

327 OLD HIGHWAY 431 S, SUITE C  
OWENS CROSS ROADS, AL 35763  
(256) 517-9277

200 LIME QUARRY RD  
MADISON, AL 35758  
(256) 542-1970

901 COMMERCE DR, SUITE 1A  
GULF SHORES, AL 36542  
(251) 200-4750

will we ever, see any children over 21. Our facility is not set up for adults. This is why we are now limiting to ages 0 - 16. We are allowed to treat and bill for those disorders and diagnoses that are habilitative only. We provide habilitative services to those children that have never had a skill or need to receive therapy to maintain function such as autism, articulation, language, stuttering, expressive and receptive language, handwriting, those who have never had normal gross motor and need therapy to be able to be more mobile (cerebral palsy, torticollis, Down's syndrome, etc.), fine motor skills that have never developed (scissor skills, skills to prepare for coloring and writing), sensory problems that do not allow children to dress appropriately at school or home, don't allow them to be able to sit in a desk or function in a classroom, can't handle lights or noises that makes them unable to function in society, etc.).

9. How habilitative services differ from rehabilitative (we do not provide rehabilitative services) services: We are allowed to treat and bill for those disorders and diagnoses that are habilitative only. We cannot bill for any disorder or diagnosis that is rehabilitative (those who had normal functioning and need therapy for rebuilding previous function due to an illness or accident - for example: stroke, multiple sclerosis, Parkinson's, head injuries, etc.). We treat those children that have never had a skill or need to receive therapy to maintain function (autism, articulation, language, stuttering, expressive and receptive language, handwriting, those who have never had normal gross motor and need therapy to be able to be more mobile (cerebral palsy, torticollis, Down's syndrome, etc.), fine motor skills that have never developed (scissor skills, skills to prepare for coloring and writing), sensory problems that do not allow children to dress appropriately at school or home, don't allow them to be able to sit in a desk or function in a classroom, can't handle lights or noises that makes them unable to function in society, etc.).

Thank you again for your assistance and guidance in completing this process. Please contact me if any further information is required.

Sincerely,

Tracy Bond, MA, CCC-SLP
